An introduction to data.table

short course in R

Presenter: Saghir Bashir (FCUL)

Session 4: 13:00-16:30, Friday 17 May, Room 6.4.30

Summary:

The R package `data.table` provides a high-performance version of base R's `data.frame` with syntax and feature enhancements for ease of use, convenience and programming speed. Motivation and concepts will be presented, followed by exercises. During the exercises the participants will discuss and work together.

Prerequisites: Laptop (battery fully charged is strongly recommended) with the latest version of R (<https://cran.r-project.org>), Rstudio (<https://www.rstudio.com/products/rstudio/download/>) and the `data.table` package.

Registration form: <https://forms.gle/9UXJ31XHjFhN5hHQ8>

Coming soon, in May:

Session 5: Git & GitHub - Tracking your work

Session 6: Report writing & R markdown

Organization: [Mestrado em Bioestatística](#), with the support of DEIO and CEAUL
