R Workshops Review & Using R in Real-life

short course in R

Presenter: Saghir Bashir (FCUL)

Session 6: 13:00-16:30, Friday 31 May, Room 6.4.30

Summary:

The five CEAUL R workshops have covered:

R Basics

Tidy data

Data manipulation with Tidyverse & data.package

Data visualisation with ggplot2

Using git and GitHub with RStudio

The next workshop will start with a brief review of the previous workshops. Participants will then work through an exercise to correct common errors in R. They receive an R markdown document via GitHub to fork and correct.

This session will encourage good working practices in R using GitHub, learning how to fix errors in programs and working with programs written by others.

Prerequisites:

Laptop (battery fully charged is strongly recommended)

the latest version of R (<https://cran.r-project.org>)

the latest version of RStudio (<https://www.rstudio.com/products/rstudio/download/>)

the latest version of git (<https://git-scm.com/downloads>)

An account on <https://github.com/>

Registration form: <https://forms.gle/X8A99u5rRRsFsjB98>

Coming soon, in June: Session 7 - Report writing & R markdown

Organization: [Mestrado em Bioestatística](#), with the support of DEIO and CEAUL
